

Congratulations!

2020 Scholarship Recipient

Marshal Frodge

My name is Marshal Frodge, and I am a freshman at California State University Long Beach. I am currently majoring in civil engineering; my interest in which can be attributed to a very long lasting Lego addiction. During my time at Saint John Bosco High School, I chose to participate in the Engineering Pathway, where we were taught the process of creating machines with our hands. My fascination in the field resulted in an abundance of research, which as a consequent, developed my passion of becoming a Civil Engineer. A few of my personal interests include fitness, gaming, and community service. I am exceedingly grateful for your generosity and am honored to be one of the first recipients to represent Saint John Bosco High School.
